

UK FILLER KAOLINS

SUSTAINABLE, COST-EFFECTIVE ASSETS

The extensive kaolin reserves in Cornwall are ideally suited to the production of filler kaolins. As part of its restructuring of Kaolin production assets in recent years, **IMERYS** has made significant investment in its UK kaolin operations, to create a sustainable platform for the future of these assets.

IMERYS is the global leader in kaolin and offers the most comprehensive range of kaolins for the paper industry, From filler clays to engineered kaolins for coating, **IMERYS** continues to add value to paper.

UK FILLER KAOLINS

IMERYS PIGMENTS FOR PAPER IS THE LEADING PROVIDER OF KAOLIN TO THE GLOBAL PAPER INDUSTRY AND THE ONLY PRODUCER THAT IS ACTIVE IN EACH OF THE MAJOR, HIGH QUALITY, KAOLIN REGIONS OF THE WORLD:

- ✦ CORNWALL, UK
- ✦ RIO CAPIM CAULIM (RCC), BRAZIL
- ✦ MIDDLE GEORGIA, USA

WE ALSO HAVE A KAOLIN OPERATION AT PITTONG IN AUSTRALIA, WHICH SERVES THE ASIAN PAPER MARKET.

With the transition of the UK coating kaolin business to Capim™, and the corresponding increase of kaolin production capacity in Brazil, **IMERYS** Pigments for Paper have concentrated their UK operations in Cornwall towards the production of filler kaolins.

The extensive kaolin reserves in Cornwall are ideally suited to the production of filler kaolins. As part of its restructuring of Kaolin production assets in recent years, **IMERYS** invested more than £25m in its UK kaolin operations, to create a sustainable platform for the future of these assets.

IMERYS Pigments for Paper's strategy is to ensure that we maintain our leadership position in the future. To do this, we need to provide a long term sustainable and cost-effective platform for both filling and coating kaolins.

Our UK filler product portfolio consists of a multi-purpose filler grade, Intrafill™ 60 and a comprehensive range of Intramax™ branded products, for more specialised filler applications.

We continue to offer, what is regarded as, the most extensive portfolio of kaolin products to the paper industry, a product range that meets the technical requirements of the paper industry, both today and in the future.
